Who we are?

We (Dilan 32, Utku Can 33) are a couple currently living in **Trondheim**.

We moved to Norway when Dilan started as a **teaching assistant and Ph.D. candidate** (stipendiat) at NTNU in **2016**.

Dilan is an Evolutionary Biologist specializing in molecular genetics.

Utku Can is a senior **software engineer** working at [Sportradar](#) Trondheim since 2017.

You can also see our profile on Finn: <https://www.finn.no/252827232>.

You can also see our professional profiles on LinkedIn;

- Utku Can: <https://www.linkedin.com/in/utkucanyucel/>

We are originally from Turkey. We met each other in **2009** at the university. Since then, we are together. Dilan lived in the UK for a short while during her master's. Later we moved to Trondheim in 2016.

We love animals a lot, but we do **not have pets**.

Why do we write in English?

We are learning Norwegian. Dilan has already passed **B2** level Norwegian tests. Utku Can completed a course with **A2** level. (Levels from basic to advanced: A1<A2<B1<B2<C) Unfortunately, we are still not comfortable in speaking. We didn't have much opportunity to practice the language since we both work in a multi-national environment.

What do we do in our free time?

We are **calm** people. On an average weekend evening, we enjoy watching TV series and playing video games together. Generally, **we prefer meeting outside** with our friends. In holidays and vacations, we usually travel abroad.

Do we have any references?

We lived in the **same apartment** in Trondheim for **6 years**. You can find a reference letter from our landlady in the last section. Her name is Mona Senneset and her phone number is 93268001.

If necessary, we can request a reference letter from our employer/supervisor.

What is our future plan?

We are planning to stay minimum of **2-3 years** until we have enough savings for our own place. Until that point, we do not plan to extend our family. We want to experience Oslo, that's one of the biggest reasons we are looking for a central place.

How is our finance?

Our latest credit check shows **79 Very Low Risk**. You can see the report in the following section.

Utku Can's base pay is 65000 nok/month, excluding bonus and tech-support payments. We can provide recent payslips upon request.^[08]

Dilan will pursue job opportunities as a Data Scientist after her Ph.D. defense this summer.

REFERANSE TIL LEIETAGERE DILAN SAATOGLU OG UTKU CAN YÜCEL

Dilan og Utku har bodd i vår leilighet fra 15. juni 2016, og flytter ut 31. mai 2022.

Husleien har alltid blitt betalt korrekt den 1. i hver måned, og jeg kjenner de som hyggelige og rolige personer.

Jeg anbefaler å ha de som leietagere.
